## Bio-active formulation breaks down odor-causing bacteria into CO<sub>2</sub> and water

An outstanding Pet Stain & Odor remover that can be used anywhere. Effective on carpeting, furniture, pet bedding, carriers, grass, artificial turf & more. OdorPet is biodegradable and has a near neutral pH so it can be used on all surfaces as frequently as needed. It's bio-active formulation of stabilized bacterial spores (plus other proprietary pet odor eliminators) produce enzymes in the presence of organic animal debris. Just spray this ready-to-use formula and allow to air dry. OdorPet immediately goes to work breaking down the odor-causing bacteria into CO<sub>2</sub> and water. This

makes cleaning up pet messes easy. OdorPet is also effective removing pet stains on your carpet. OdorPet can be used in cat litter boxes to control pet odors (outstanding for breaking down pet urine), to clean bird cages and small animal housing. OdorPet is available in two pleasant scents, black cherry, and lavender. Why not use what the pros use, the best pet odor eliminator you can buy, OdorPet.

URINE

VOMITUS

FECES

ALL ODORS

WORKS GREAT IN CARPET CLEANERS

## How to use:

1. Wipe up as much of the mess as possible.
2. Spray OdorPet to area you are trying to clean and remove odors.
3. Scrub stained area with cloth or brush depending on the surface type and severity of the stain. For carpet messes, make sure to saturate the area with OdorPet so the solution will reach the lowest point where the odor causing debris is located (i.e. if urine saturates all the way down to your carpet pad and subfloor, OdorPet must reach that point. OdorPet will only work if it reaches the source of the odor causing debris).
4. Once you have applied ample amounts of OdorPet, let air dry.

### Ready To Use (RTU)

**1 SHAKE**  
Before Using

**2 APPLY**  
To Soiled Area

**3 WAIT**  
Minutes - 4 hours

### Concentrate

**1 SHAKE**  
Before Using

**2 MIX**  
1 OdorPet/4 Water

**3 APPLY**  
To Soiled Area

**4 WAIT**  
Minutes - 4 hours
